

PS-6100

This chainsaw does the job as a felling saw and a debranching saw in one machine. Especially at far offsite locations which have to be reached by foot, the transport of only one saw makes the job a lot easier.

Touch&Stop one lever control with clearly defined positions for cold starting, operation and stop. Engines shuts off with just a touch.

Primer pump for easy cold start

Extended worktime with Longlife Filter system. Toolless change and easy cleaning.

Easy Start: Spring assisted starter

| Technical specifications | | | |
|--------------------------|--------------------|--------------------|--------------------|
| Displacement | 61 cc (3.7 cu. in) | Vibration damping | yes |
| Power rating | 3.4 kW (4.5 HP) | Chain tensioning | Lateral tensioning |
| Max engine speed | 13,800 rpm | Automatic oilpump | yes |
| Net weight | 6.0 kg (13.22 lbs) | Standard guide bar | PHO |
| Fuel tank capacity | 0.8 l (27 oz) | Optional guide bar | 18", 20" |
| Oil tank capacity | 0.48 l (16.2 oz) | | |

- Big fuel tank - up to 30 minutes operating with one tankfill
- Intake air pre-cleaning significantly reduce dirt particles at an early stage
- Extended worktime with Longlife Filter system. Toolless change and easy cleaning.
- Easy Start: Spring assisted starter combined with optimized engine management significantly reduces resistance
- Primer pump for easy start
- MPI technology (Memory-Power-Ignition) for easy restart
- Up to 20% less fuel consumption and low emissions according 2002/88/EC for environmental and user benefit with SAS-Technology
- Touch&Stop one lever control with clearly defined positions for cold starting, operation and stop. Engines shuts off with just a touch.
- Powerful at a high torque
- Vibration damping
- Lateral chain tensioner for uncomplicated re-tensioning of the saw chain
- Adjustable oil pump, disabled at engine idling
- Centrifugal clutch with 3 weights
- SafetyMatic chain brake
